University of Illinois at Chicago

The cover of the textbook 'Intro Stats' by David Wearden, Andrew Bennett, and Tracy. The title is in large, bold, serif font at the top. Below the title, the authors' names are listed in a smaller font. The central image shows a person's head and shoulders, looking out from a high, arched opening of a stone wall. The wall is made of large, textured stone blocks. In the bottom right corner, there is a circular badge that says 'Includes SPSS!' and a small logo for '3rd Edition'.

Statistics
FOR
DUMMIES

Learn to:
Organize data, draw histograms, calculate,
interpret and analyze graphs and charts,
understand probability, and use other
mathematical techniques

Deborah J. Rumsey, PhD

the signal and the noise and the noise and the noise and the noise why so many predictions fail—but some don't and the noise and
